

Dessert And Dialogue

~HEALTH DISPARITIES~

UNNATURAL CAUSES: IS INEQUALITY MAKING US SICK?

**Part 5 of a 7 part series
"Place Matters"**

This session explores that increasingly, recent Southeast Asian immigrants, along with Latinos, are moving into long neglected African American urban neighborhoods, and now their health is being eroded as a result. What policies and investment decisions create living environments that harm or enhance the health of residents? What actions can make a difference?
