

Driveway Parking Plan

Owner: John Doe
 Address: 1212 Go Gators Avenue
 Parcel #: 55555-555-555
 Date: 03/15/2004
 Drawn by: John Doe

Official Use Only:
 Plan Approval: Denied Approved
 Code Officer: _____
 Date Approved: _____

Official Use Only: (Inspected 45 days after plan approval)
 Construction: Denied Approved
 Code Officer: _____
 Date Constructed: _____

EXAMPLE

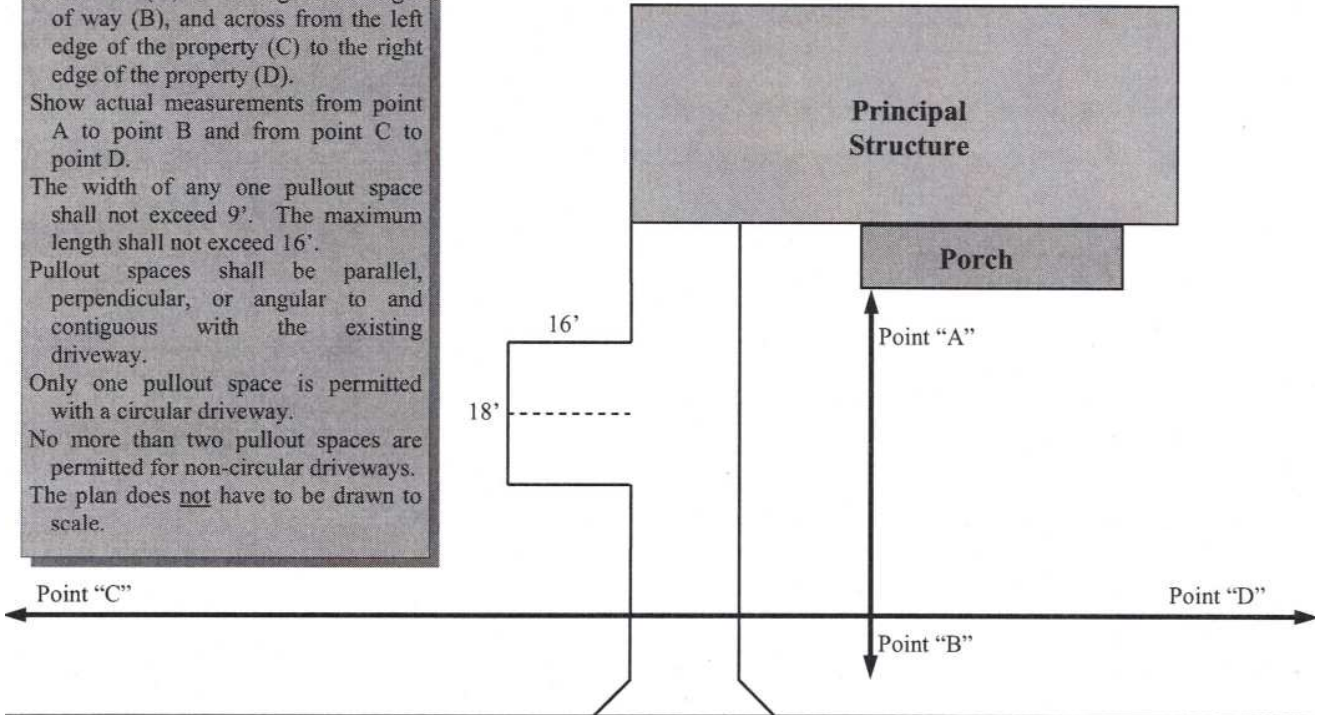

Existing Concrete or Paved Driveway Only - No Additional Pullout Spaces Are Requested.
 No Drawing is required if you choose this option; however, the only allowable parking area will be your existing concrete or paved driveway.

Drawing with a Perpendicular Driveway

EXAMPLE

Notes:
 No more than 40% of the front yard area shall be used for parking. This measurement shall be measured from the closest edge of the principal structure (A) to the edge of the right of way (B), and across from the left edge of the property (C) to the right edge of the property (D).
 Show actual measurements from point A to point B and from point C to point D.
 The width of any one pullout space shall not exceed 9'. The maximum length shall not exceed 16'.
 Pullout spaces shall be parallel, perpendicular, or angular to and contiguous with the existing driveway.
 Only one pullout space is permitted with a circular driveway.
 No more than two pullout spaces are permitted for non-circular driveways.
 The plan does not have to be drawn to scale.

All fields must be filled in or plan will be denied

Erosion Preventing Material Used
 (Check all that apply)
 Pavement Concrete
 Brick Brick Pavers
 Mulch (bark, cypress, or wood chips only)
 Gravel (1/4" - 1 1/2" diameter)
 Rubberized Mulching Material
 Other: _____
 (Pending Approval)
